

Amendments to the Specification:

Please replace paragraph [0001] with the following amended paragraph.

[0001] This application is related to the following co-pending, commonly-assigned and concurrently filed U.S. Patent Applications, the entirety of each of which are herein incorporated by reference for all purposes: Provisional U.S. Patent Application No. 60/554,511 [---/---/---], entitled "PROPERTY RECORDS DATABASES AND SYSTEMS AND METHODS FOR BUILDING AND MAINTAINING THEM" (~~Attorney Docket No. 040143-000100~~); U.S. Patent Application No. 10/804,472 [---/---/---], entitled "AUTOMATED RECORD SEARCHING AND OUTPUT GENERATION RELATED THERETO" (~~Attorney Docket No. 040143-000200~~); U.S. Patent Application No. 10/804,467 [---/---/---], entitled "DOCUMENT ORGANIZATION AND FORMATTING FOR DISPLAY" (~~Attorney Docket No. 040143-000400~~); Provisional U.S. Patent Application No. 60/554,514 [---/---/---], entitled "CONFIDENCE-BASED NATURAL LANGUAGE PARSING" (~~Attorney Docket No. 040143-000500~~); and Provisional U.S. Patent Application No. 60/554,513 [---/---/---], entitled "CONTEXTUAL CONVERSION OF LANGUAGE TO DATA" (~~Attorney Docket No. 040143-000600~~).

Please replace paragraph [0031] with the following amended paragraph.

[0002] In one embodiment, logic 100 is used to retrieve records associated with documents recorded with a government entity for a title examination. In this embodiment, data set 110 may include information obtained from recorded documents. The recorded documents may be obtained from a plurality of government entities. Each document may include a variety of information. As one example, a document may include a government identifier (e.g., a reception number, an instrument number, a volume/book/page number), a document date, a recordation date, a Mortgage Electronic Registration (MERS) number, a Torrens title number, address data, parcel identification data, location data, one or more names (owner, seller, lien claimant, etc.), and one or more references to previously recorded documents (e.g., previous reception/instrument number). The location data could include one or more of meridian, range,

township, section, subsection, lot, block, tract, subdivision, parcel number, or other types of data describing location. Further details of the information contained on a recorded document may be found in previously incorporated Application No. 60/554,511 [[_____]] (~~Attorney Docket No. 040143-000100US~~). It should be appreciated that recorded documents may contain additional or alternate information from that described above.

Please replace paragraph [0032] with the following amended paragraph.

[0003] The information obtained from recorded documents may be stored in a relational database with a plurality of tables. The tables may include normalized document meta-data for each document (e.g., document id, recordation date, government identifier, document date, document type), normalized location data (e.g., subdivision identification, block, lot, tract), normalized name data for names referred to by documents and the role associated with the name for the document (e.g., seller, buyer, lien holder, etc.), normalized address data, normalized parcel identification data, and/or normalized document reference data linking two documents. It should be appreciated that data set 110 may include additional information related to documents recorded with government entities as described more fully in application 60/554,511 [[_____]] (~~Attorney Docket No. 040143-000100US~~), previously incorporated by reference.
